T1 = Initial assessment; T2 = Evaluation after 12 weeks; T3 = Final evaluation; Group, Time and Interactions (group x time) effects were observed by variables and measurements (moments) pairwise comparisons using Generalized Estimating Equations (GEE). Data expressed as mean ± standard deviation of the mean. n = absolute frequency. Ab Different lowercase letters indicate difference proportion among the studied groups. AB Different uppercase letters show the evolution of a certain group over time. Significance set as p ≤ 0.05 for all analyse
